Template 3

1. Upon completing setup of the wireless network, applicable products will present template or setup wizards

Tip: See the reverse side of this guide for basic navigation information and settings.

ECOTECH MARINE
XR30
SN3G6925JD9A5583

This device is part of an aquarium, if you would like to add it to a new tank it will need to be factory reset.

Reset

Add Configured

1. If a device is not found, make sure it is powered on and not already added to a Mobius tank on your mobile device.

If it is, you will need to remove it before adding it to a new tank.

2. If a device that was already programmed and is attached to a different Mobius account, you will be prompted to either "Add Configured" or factory reset the device first.

Logout

⊗

Sorry, we can't connect to this tank.

Select Tank
Try Again

1. If the tank is not found. Check that equipment is powered on and within wireless range.

If you have multiple tanks, use the "Select Tank" option.

2. Click "Try Again" to attempt to re-establish the connection.

3. Power cycle a non-responsive product.
